The Daily News.

NEWPORT,

BY CRANSTON & NORMAN

144 THAMES STREET.

FRIDAY MORNING, APRIL 6, 1855

WANTED.

A N INTELLIGENT boy, of steady habits, to learn the printing business, to whom a good situation will be given; apply at this office immediately.

ST. SAN has carried Rhode Island, Gov. Hopper is re-elected by about 8,000 majority; the other State officers are elected by 5,000 majority. Durfee and Thurston are elected to Congress. Sam also has the General Assembly very largely. We do not publish the tables, because they have no particular interest to us at this time.

PERSONS must remember that the postage on all letters must be pre-paid now, or they will not be transmitted through the mails.

CALL in at TISDALE'S new Store, No. 116 Thames Street, and examine their stock of Staple and Fancy Goods, Jewellery, &c.

CONCERT advertised for last evening will take place this evening, if the weather proves pleasant.

ST. THE Boston Bee has again been enlarged and otherwise improved; we are glad of its prosperity.

COMMODORE Perry, of the late Japan Expedition, has purchased an elegant mansion in West Thirty-second street, between Broadway and Fifth Avenue, with the intention of making New York his future residence.

CONTRARY to the Tribune publishes a letter from an American in the Russian service at Sebastopol. He states that no native French soldier has deserted, though the name cannot be said of the English. There are two American surgeons in Sebastopol, one from South Carolina, and the other from Rhode Island.

CONTRARY to the joint committee on railways and canals in the Massachusetts Legislature have unanimously reported a bill providing for a loan of the credit of the State to the amount of one million of dollars to the Vermont and Massachusetts railroads. This is very different from the policy pursued toward railroads by our General Assembly.

CONTRARY to the news from Havana is not of a character to aid and abet Fillibustering, which, if we can credit a Washington correspondent of the Tribune, is again in motion in the South West, and with some force, to make an outcast upon Cuba. The great marvel is,—where do these men get all their money, to charter, or to buy vessels, steamboats, &c.?

The case of Thompson, the Consul, may be considered settled,—as we have already stated. The firing at the El Dorado can be and will be apologized for,—inasmuch as the Spanish Commander supposed them to be the steamer he was in pursuit of,—with Fillibusters on board. When he finds out to the contrary, he will readily make (doubtless) an apology. Now then, and last, as bad luck for the Fillibusters will have, General Concha, according to the 'Courier des Etats Unis,' has remitted the case of Estrampes and Felix to the Spanish Minister in Washington, to be acted upon by him there,—in consequence of the claim of our Consul in Havana, that they are American citizens. We do not see any chance for taking Cuba on any pretences yet got up,—even if we could take it by Fillibustering, or otherwise.

So far from our Naval force being needed there,—it is diminished by the withdrawal of the Fulton, and the Princeton, we see. The San Jacinto will supply their places, but mainly to try her repaired propeller.

COMING DONNA PEG.—The doctors have discovered that John Scott, who was thought to have been murdered in a New York porter house, ignorantly died of a vulgar and contemptible apoplexy. Where now is Mr. Scott's chance of a biography? —[Boston Atlas.]

CONTRARY to the long contested suit against Col. Herman Thorne of New York, has been finally decided in his favor in the Court of Errors and Appeals. The amount pending is stated at half a million of dollars.

CONTRARY to the sale of Daniel Webster's Marshfield property, real estate was disposed of to the value of \$1,300, and sheep and cattle to the value of \$8,100.

SEBASTOPOL NO MORE.—The N. Y. Express says: "Talk not of Sebastopol!—There is no fight in the world of half the importance as is this in New York, just now, between all Pandemonium and Major Wood. We rather think Belzebub will beat."

CONTRARY to the Massachusetts Legislature, an order has been adopted instructing the Committee on Mercantile Affairs to consider the expediency of reporting a resolve remonstrating against an act of the Legislature of New York, imposing dues on vessels passing through Hurl Gate.

BY TELEGRAPH.

CINCINNATI, Tuesday night, April 3.

The excitement in this city is on the increase. The Germans mans refused to give up the cannon. Consequently fighting has commenced over the Canal, and it is reported several have been killed.

The Germans are mostly armed, and fortified within houses, while the Americans are also well prepared. The probability is, that matters will be measurably postponed until the morning, when it is hoped that the present bitter feeling may have subsided.

SECOND DISPATCH.

CINCINNATI, April 4, A. M.

Nothing of special importance transpired after our last dispatch last night. This morning a large crowd assembled in the Fifth street market space, and the greatest excitement was manifested. The military are under arms awaiting orders. The Germans have agreed to deliver up the cannon at 10 o'clock this morning, and if they do so it may prevent a collision.

BUFFALO, April 4.

The Wisconsin Legislature has adjourned sine die.

Governor Barstow has vetoed the Prohibitory Liquor Law, which was passed subsequent to his first veto, and was diverted of the clauses to which he had previously objected.

The returns for the election of a Judge of the Supreme Court in Wisconsin strongly indicate the choice of Judge Cole.

CALIFORNIA.—Perceiving in some of the California papers intimations that the interests of that new and enterprising State have not received proper consideration by Congress, we have turned to the record to see how far the complaint is justified, and present a few practical illustrations, viz:

In the General Appropriation bill we find the following items: For salaries of officers of the Mint at San Francisco, wages of workmen, and other expenses, \$150,500; for compensation of the Surveyor General of California and his clerks, \$39,000; for expenses connected with the lighthouses on the coasts of California, Oregon, and Washington, \$95,074; for surveys in California, Oregon, Washington, N. Mexico, Kansas and Nebraska, \$150,000 for Surveyor General's office in California, \$18,000; for continuing the surveys of the islands off the coast of California, \$40,000; for the transportation of certain persons from San Diego to San Francisco charged with a violation of the neutrality laws, \$1,200; for salaries, &c. of the land-commissions, \$120,000; for deficiency for the branch mint at San Francisco, \$66,000; for completion of the Custom-House at the same place, \$141,271; for the construction of two lighthouses in California, 30,000; and for pay of three Indian agents in California, \$12,000.

In the Naval Appropriation bill there is an appropriation for completing storehouse and other buildings, repairs, &c., \$15,000, and for basin and railway \$400,000; for transportation of the mails from Panama to California and Oregon back, \$328,350; for deficiency in the same service, \$349,242.

In the army bill, continuing the construction of the arsenal at Benicia, California, the sum of \$40,000 is appropriated.

In the Post office appropriation bill a section was introduced and adopted appropriating the sum of \$120,000 per annum for establishing and putting in operation a semi-monthly mail by sea from San Francisco to various points in the Territory of Washington.

Besides these liberal provisions, an act was passed giving California a Circuit of the United States, in addition to her two District Courts, and one giving the right of way and other facilities for the construction of a telegraph line to California; also, a mail route from Independence, in Missouri, to Stockton, in California via the settlement at the mouth of the Huachuca, on the Auferano, on the Upper Arkansas, and the Little Salt Lake settlements on the head water of the Nicoll river.

An extraordinary degree of interest has been manifested in Boston, in regard to the proceedings of the legislative committees on conventions and intermissions, who were authorized to visit all the institutions of this character within the State. They visited the institutions in Roxbury, accompanied by persons who had no right to enter those places, and the Boston papers complain of the bad behavior of the examiners.

INSECTS ON Cabbages.—An agriculturalist correspondent in Brant, Me., in alluding to a statement that no remedy has been found for the ravages of insects on the cabbage, recommends hoeing the plants early in the morning while the dew is still on them, and throwing the dry earth beneath plentifully over them. This course he has found invariably soon to prove effectual.

COAL ON THE VINEYARD.—John Holmes Jr. of Holmes Hole has given the editor of the Vineyard Gazette a formation of anthracite coal, dug from Gay Head Cliffs. It bears evident marks of having been at one time wood, a portion of it not being mineralized. Mr. Holmes states that considerable quantities of like formations are said to exist at the Head, below the surface of the ground.

The house in which Calhoun was born has just been converted into a "negro quartier."

In some sections of New York, especially some of the western counties, there is a scarcity of lay almost unprecedented. The Buffalo Republic says many farmers have been obliged to sell their cattle at a loss to save them from starvation.

THE LIFE OF

HON. W. H. SEWARD,
His Speeches, Orations and Writings.

In One Volume with a Portrait.

Just Published.—Price One Dollar.

M. Seward's Biography is excelled by that of no living contemporary in interest and importance. His principles and sentiments are clearly and elegantly stated in the extracts embodied in this volume. Several of his best speeches are given entire.

UNIVERSAL EDUCATION, FREEDOM AND INTERNAL IMPROVEMENTS,

are the prominent topics of this book, as they are of the present age. In their discussion every true friend of Republicen Institutions is now more than ever interested. To all classes of people, old and young, therefore, this book is presented as a

MANUAL OF POLITICAL PHILOSOPHY.

Since the views and principles underlying Freedom and Improvement in this country have come to be generally known us

SEWARD'S,

every intelligent person, on either side, requires to be fully "posted up" in the matter.

J. S. REDFIELD,
